

Parish Safe Environment Annual Audit Report Instructions

The parish administrator and SEC are responsible for tracking all employees as well as volunteers in contact with children/youth minors and submitting this report annually, <u>no later than July 15th</u> to the Diocesan Safe Environment Office.

This information is required for the Annual USCCB Audit which assesses the implementation of The Charter for the Protection of Children and Young People.

Audit Report Instructions

The Charter auditors are looking for the total number of employees and volunteers that were required to be Safe Environment Certified and are active as of June 30th.

It includes those that were active and Safe Environment Certified in prior years – not just those Safe Environment certified during the current year. It does not reset to zero each year.

Hint: If you could gather all the current, active adult volunteers and take a photo of them all together on June 30th, how many would there be? That total will be entered under the Adult Volunteer section.

<u>Include</u>: (note definitions under each role on the form)

- All employees active as of June 30th (NOT CLERGY)
- All volunteers active as of June 30th

Do Not Include:

- Anyone that became inactive and therefore were archived prior to June30th
- Anyone who is not required to be Safe Environment Certified.

Parish Safe Environment Annual Audit Report

The information on this report form should reflect the total number of employees and volunteers that were required to be Safe Environment Certified and are active as of June 30th.
